1. Aims

Schools are required under the Equality Act 2010 to have an accessibility plan. The purpose of the plan is to:

- Increase the extent to which disabled students can participate in the curriculum
- Improve the physical environment of the school to enable disabled students to take better advantage of education, benefits, facilities and services provided
- Improve the availability of accessible information to disabled students

Our school aims to treat all its students fairly and with respect. This involves providing access and opportunities for all students without discrimination of any kind.

All employees and students must demonstrate the school's core values:

Responsible – we will stay safe and do our best

Helpful – we will work together and always think of others

Inspiring – we will think of new ways of working

Straightforward – we will make things clear and tell the truth

Compassion - we will be brave, believe in what we do and care about others

The plan will be made available online on the school website, and paper copies are available upon request.

Our school is also committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues.

The school supports any available partnerships to develop and implement the plan.

If you have any concerns relating to accessibility in school, this procedure sets out the process for raising these concerns.

We have included a range of stakeholders in the development of this accessibility plan, including staff and governors of the school.

2. Legislation and guidance

This document meets the requirements of schedule 10 of the Equality Act 2010 and the Department for Education (DfE) guidance for schools on the Equality Act 2010.

The Equality Act 2010 defines an individual as disabled if he or she has a physical or mental impairment that has a 'substantial' and 'long-term' adverse effect on his or her ability to undertake normal day to day activities.

Under the Special Educational Needs and Disability (SEND) Code of Practice, 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

Schools are required to make 'reasonable adjustments' for students with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a disabled pupil faces in comparison with non-disabled students. This can include, for example, the provision of an auxiliary aid or adjustments to premises.
